

**MELINDA STARKES, RN, BSN, CLNC, CPAN
FORENSIC NURSE**

mkstarkes@engsys.com

Melinda Starkes is a Forensic Nurse with Engineering Systems Inc (ESi). Her nursing background includes Critical care and Post Anesthesia Care for Vascular, Urological, Gynecological, Bariatric, Plastic, ENT, Orthopedic, and Spine Surgery. She also has clinical experience in Endoscopy, and Bone Marrow Transplant. She has completed certifications in Advanced Cardiac Life Support and Pediatric Advanced Life Support and is a Certified Peri-anesthesia Nurse and Certified Legal Nurse Consultant®.

Prior to joining ESi, she worked as a clinical nurse for several large acute care hospitals. She has over 15 years of experience in quality patient care, nursing education, and leadership. Several of her roles required a close partnership with hospital risk management teams and informatics committees where she developed a risk management approach in reviewing of policies, procedures, medical records, and patient care standards in the clinical setting. Ms. Starkes has experience in analyzing and investigating medical records, legal documents, and government reports. She has experience serving as a nurse expert witness in medical malpractice cases, attending independent medical exams (IME's) and evaluating cases for merit.

Ms. Starkes specializes in creating medical summaries that outline critical information such as pertinent past medical history, pre-existing conditions, prior injuries, current medical history, physical injuries, diagnoses, lifestyle factors, medications, subjective evidence, and missing medical records. She also aids in preparing deposition questions, injury diagrams and assists in the development of medical-legal exhibit.

Areas of Specialization

Forensic accident records review:

- Identification of missing records/audit trails
- Medical records summarization
- Critical analysis of healthcare, government, and legal records

Medical-legal trial exhibits

Medical-legal case review
